I transmit herewith, for the consideration of the Commission at an early date, programs covering certain phases of the experimental work to be performed under the supervision of Dr. Alvin C. Graves, as Scientific Director at Hanford, during the early spring of 1951. The programs, Enclosures A and B of the subject letter, are approved from the laboratory standpoint, and as being within the responsibility of J-Division.

You will note that Dr. Graves and Dr. Shields Warren will, if required, present the programs to the Commission and the General Advisory Committee.

Original Signed by N. E. Bradbury

Morris E. Bradbury, Director
Los Alamos Scientific Laboratory
